Prof. Julie Fish
De Montfort University
Leicester
Health First

• Are our health services LGBT friendly, for both patients and staff?

• Are our cancer screening services targeting lesbian and bisexual women?

• Are our other prevention services targeting LGBT communities?

• Have we considered planned parenting as part of our maternity and reproductive service planning?
Nearest Neighbours

- Work with Children’s Services Colleagues around anti-bullying work
- Work with police colleagues around anti-discrimination and hate crime initiatives
- Work with Social Services around homelessness and hard to reach lesbian communities
- Work with the LGBT and wider Voluntary and Community Sector
- Work with your planning dept to improve the physical environment
Intelligence Led

- Have we mapped our LGBT assets?
- Have we mapped need against the life course?
- Have we conducted a needs assessment with specific recommendations for lesbian women?
- Is it possible to conduct surveys? Focus groups to inform JSNAs?

Taking the agenda forward: questions for discussion

• What are the priorities?
• What do you need to achieve them?
• What other resources can help with this?
